PACKING

We consider that packing is as important as delivering genuine medicine. Delivery must be in suitable conditions according to destination and product itself.

Boxes, pallets, cold chain packing, wooden cases, however it is packed, all packages are twice checked before the loading.

COLD CHAIN

Pharmaceuticals which are needed to be shipped in cold chain are packed according to international standards in special boxes with ice packs to keep the temperature between 2-8 Celcius degrees and controlled, recorded by the data logger fitted in the box.

SHIPMENT

We do shipments according to our customers' requests, by special courier service, postal service, air cargo, sea containers or international trucks. All loadings are done at our warehouse unless otherwise.

The page features decorative geometric patterns in the corners, composed of overlapping triangles in shades of light blue, teal, and pale yellow. The text 'THANK YOU!' is centered in a bold, dark teal font, with a stylized heart graphic behind it. The heart is formed by two overlapping curved lines, one in a light orange color and the other in a light blue color.

THANK YOU!
